Summary

I am a Front-End Developer who wants to develop highly interactive and dynamic websites using the newest breakthroughs and technologies.

Experience

Developer I – Web January 2013 – present

Footlocker.com/Eastbay

- Turn mockups into working web projects using new web standards
- Figure out new, more efficient ways to develop projects
- Review and re-factor old projects with new standards
- Give input and feedback on newly created designs and upcoming projects
- Create jQuery plugins for in house use when needed

Student Software Developer June 2011 – January 2013

University of Wisconsin – Stevens Point

- Developed AIR applications with a talented team of current students
- Stayed on the cutting edge of technology (Away 3D, Native extensions)
- Managed hours and work with little to no supervision
- Helped develop two mobile AIR projects, a stroke victim project using the Kinect and Away 3D, and an In-Patient Registration system project

Web Manager May 2011 – August 2011

University Dining Services

- Transitioned old HTML site to a SharePoint site
- Recreated old forms and webpages
- Created new forms and pages where needed
- Worked with limited supervision

Education

Web & Digital Media Development Bachelor of Science | September 2008 – December 2012

University of Wisconsin – Stevens Point

Related Experience

CNMT 480 Capstone Class

- Worked with five clients from the greater Stevens Point area to build/redesign their websites
- Developed and/or helped develop five custom WordPress websites
- Developed a custom WordPress business directory plugin in tandem with a teammate
- Communicated directly with clients and trained them on their new sites
- Created extensive documentation on WordPress functionality for client
